

Kirsty Hawkshaw, River

River take me with you
To your destination
Catch my gaze
Distort my reflection
Paint my eyes
In waves of protection

I get bored of flowing
In straight lines
Tired of seeing the same signs
Gotta keep on moving
Keep clearing the way
The clouds that swell
When we drop like stones
Deep down. deep down

Upstream
Is the only life I know
And if I let go
Is it true tell me
There's a place tell me
Where all rivers interflow?

I get bored of flowing
In straight lines
Tired of seeing the same signs
Gotta keep on moving
Keep clearing the way
The clouds that swell
When we drop like stones
Deep down. deep down
