Kiss, Anything For My Baby

Anything for my baby I would steal anything for my baby I'd wheel and deal anything for my baby Oh

I'm in love and it feels so good 'Cause I need her, don't mistreat her And I tell her so When I saw her and she looked my way I was lonely, she's my only And I've gotta say that

I would steal anything for my baby I'd wheel and deal anything for my baby Crawl or kneel, anything for my baby

In the morning when I raise my head She's beside me, she can hide me When I'm feelin' low If I'm thinkin' everything's all wrong My girl shakes me, she awakes me Then I really know that

I would steal anything for my baby I'd wheel and deal anything for my baby Crawl or kneel, anything for my baby

Don't you know that I would steal anything for my baby I would wheel and deal anything for my baby I would crawl or kneel, anything for my baby I'd do anything

I would give anything for my baby
I would die or live, anything for my baby
I would t-t-t-take or give anything for my baby
Yes, I would take anything for my baby
I would build or break anything for my baby
I would rob or take anything for my baby
I would do anything for my baby
I would steal anything for my baby
I would wheel and deal
