

Kiss, Love Her All I Can

I remember the times I was lonely without her
Now she's mine and I spend my times dreamin' about her

Love her all I can and try to understand
The things that make her glad
The things that make her sad
I'm a lucky guy, I hardly ever cry
And when the world looks bad
She's never ever sad

She's so easy to please and it doesn't take money, no, no
We can have a good time when the skies aren't sunny

Ah, I love her all I can and try to understand
The things that make her glad
The things that make her sad
I'm a lucky guy, I hardly ever cry
And when the world looks bad
She's never ever sad
Whoo

I remember the times I was lonely without her
Now she's mine and I spend my time dreamin' about her

I love her all I can and try to understand
The things that make her glad
The things that make her sad
I'm a lucky guy, I hardly ever cry
And when the world looks bad
She's never ever sad
