Kiss, Love Her All I Can

I remember the times I was lonely without her Now she's mine and I spend my times dreamin' about her

Love her all I can and try to understand The things that make her glad The things that make her sad I'm a lucky guy, I hardly ever cry And when the world looks bad She's never ever sad

She's so easy to please and it doesn't take money, no, no We can have a good time when the skies aren't sunny

Ah, I love her all I can and try to understand The things that make her glad The things that make her sad I'm a lucky guy, I hardly ever cry And when the world looks bad She's never ever sad Whoo

I remember the times I was lonely without her Now she's mine and I spend my time dreamin' about her

I love her all I can and try to understand The things that make her glad The things that make her sad I'm a lucky guy, I hardly ever cry And when the world looks bad She's never ever sad
