

Kisschasy, Darkside (Acoustic)

start with a bang
it's a dead end, so hang on for your life
it's too late for me, but you're still alive
where did the darkside take me?
i've taken the easy way out, all night

there's fire in the breeze
a bitter omen for us all
and if you love me,
why don't you feel it when i fall?

you drag me down into your hell
between your thighs, i feel sickened
you're inside my stomach, eating you're way out
so start running for your life...

run for your life (i never thought you'd change me)
i'm still alive (now i've got a chance to breathe)
