

Kisschasy, Do Do's and Whoa Oh's

This is a toast to all the people listening
I hope it gets stuck in your head
So tap your feet and click, click, click your fingers
Let's make the rest of the world care
I want a song that gets attention
This is the way it goes
So if you'll play it on your station
Do-do's and whoa-oh's, whoa-oh's
So hit the lights and turn the record up now
I hope you hear this in your sleep
Spin off the typical I miss you baby
Who would've thought we were so deep
I want a song that gets attention
This is the way it goes
So if you'll play it on your station (Do-do's and whoa-oh's),
We'll grab a drink and kill our brain cells
Sing all the words we know
We're bringing back the lovers music (Do-do's and whoa-oh's)
Whoa-oh, whoa-oh, whoa-oh...
I want a song that gets attention
This is the way it goes
So if you'll play it on your station (Do-do's and whoa-oh's),
We'll grab a drink and kill our brain cells
Sing all the words we know
We're bringing back the lovers music (Do-do's and whoa-oh's)
Whoa-oh, whoa-oh, whoa-oh...
