

# Kisschasy, Doomsday

Cheep up it's not yet doomsday  
I won't be gone too long  
Let go I'll be your parachute  
The wind guides us into the sun, the sun

Breathe in I'll be your Ventilin  
I can see your house from here  
I found the perfect landing place  
Sing out so all below can hear, can hear  
Can hear, can hear

And didn't you know that this is what I do  
Didn't you know that we will lose

And didn't you know that this is what I do  
Didn't you know that we will lose  
We will lose  
We will lose  
We will lose
