

Kitaro, Caravan

Once a long, long time ago
Setting out to find our dreams
Lost in memories of olden days.....
Sometimes rising in the spring
Glowing, shimmering comes the sun
Golden day beams come through to me now.
Those who know the firebird
Try to find forever the dreams
Try to find forever the way, my way.

(Chorus)

Caravan, journey in the sky
As the sun comes out from the day
Caravan, we know who we are
We discover where or when
Caravan, now we find a love
Love shimmering and soon our loves is gone
Caravan, journey in the sky
As the sun comes out from the day
Caravan, we know who we are
We discover where or when
Caravan, now we find a love
Love shimmering and soon our loves is gone
