

# Kittie, Flower Of Flesh And Blood

My sweet obsession  
My greatest masterpiece  
When I undress you  
Everything falls in place  
I will control you  
This flower of flesh and blood  
True crimson blooming  
I'll tear the petals off of you  
Flower of flesh  
My love will die for it  
Boundless and red  
My love lies motionless  
My own creation  
My one and only slave  
Into the darkness  
The hate of hell is boundless  
This blade consoles you  
True beauty staining through  
This love destroys you  
And there is nothing you can do
