

Kitty Wells, Baby's Coming Home

Tonight baby's coming home

Clean the house and dust the chandelier make my face and then comb out my hair

And then I'll put this baby's dress on tonight baby's coming home

For a while I thought our love was gone but both of us now know that we were wrong

No longer will my nights be spent alone tonight baby's coming home

For a while I thought our love was gone...

Tonight baby's coming home
