

Kitty Wells, Don't Take All Your Loving

Don't take all your loving your sweet sweet ever loving away from me
Don't make me start to begging cause I ain't got no pride at all you see
Don't make me start to thinking you're gonna start to telling me bad news
I might as well move over get ready cause here comes another fool
Cause I'll have live live live with misery if you do
I'll have cry cry cry day and night over you
Don't take all your loving your sweet sweet ever loving away from me
Don't make me start to begging cause I ain't got no pride at all you see
[steel - guitar]
Cause I'll have live live live...
