

# Kitty Wells, Happiness Means You

Happiness means you dear our life's complete no rivers too wide no hills too steep

I'll face life smiling and no room for the blues

Cause we both know dear happiness means you

Everyone will know dear I found love at last

No time for old memories or tears from the past

Oh what a difference true love can made a heart that's lonely it's sure to break

Happiness means you dear...

[ steel ]

I never found happiness as a rolling stone

Your love changed my world when you came alone

Our love is the same dear it works both ways if my heart's got lighter it will fly away

Happiness means you dear...

Yes we both know dear happiness means you
