

# Kitty Wells, Hello There Sweet Man

Got my prettiest dress on my hair in the latest style

Waitin' for his knock on the door my heart is running wild

Only people who are in love can really understand

How I feel until I say hello there sweet man

Hello there sweet man here's a kiss to let you know

That no one else can take your place I love you so

We can make the right spots or walk hand in hand

I'm so happy just being with you hello there sweet man

[ guitar - piano ]

My blues go out the window when he comes in the door

Lonely nights and blue days come around no more

When I'm in your arms the whole world is grand

Walk around on cloud line hello there sweet man

Hello there sweet man...
