

Kitty Wells, I Can't Help Wondering

I can't help wondering
Who's holding you tight...

I went to see a movie
To try and lose my blues
But I got so lonesome
I just couldn't see it through

(Chorus:)
'Cause I can't help wondering
Where you are tonight
And I can't help wondering
Who's holding you tight

I stood out on the corner
The rain was falling slow
I turned my collar up on my coat
And walked on down the road

(Repeat chorus
