

Kitty Wells, I'll Repossess My Heart

I'm walking in to repossess my heart just can't believe you treated me this way
You've had it much too long now all our love is gone
I'll repossess my heart and love again
I still dream of you each night and long to hold you tight
And I can't even get you off my mind
True love is hard to find and you never wanted mine
I'll repossess my heart and love again
[steel - guitar]
I still dream of you each night...
