

# Kitty Wells, I'm Down To My Last I Love You

Tonight I'll go and find him one more time and I'll try my best to change his mind  
I'll tell him that I love him like I've done so much before  
And he'd better listen well cause I won't say it anymore  
Cause I'm down to my last I love you he'll have one more chance to make me blue  
I'd give the world to keep him I've done all a girl can do  
But I'm down to my last I love you

Tonight I know I'll find him way downtown with those same old party friends around  
One last time I'll tell him he means the world to me  
He'll have one last chance to hurt me and then I'll set him free  
Cause I'm down to my last...  
Yes I'm down to my last I love you
