

# Kitty Wells, I'm Just Not Smart

So you're gone again out somewhere around me  
And I can feel that heartache's bout to start  
If I was smart with you I'd quit this gambling but I guess I'm just not smart  
I can't help what people say I still love you  
They don't know and they can't see what's in my heart  
They keep saying if I'm smart that I will leave you but I guess I'm just not smart  
[ piano ]  
Love like ours just wasn't meant for parting for it's too deep in buried in my heart  
I should have known not to have let it started but I guess I'm just not smart  
I can't help what people say...
