

Kitty Wells, Just A Cheap Affair

Night life and honky tonks that's your kind of fun

I don't go that round so I better run

At church on Sunday I never see you there

You're not looking for true love just a cheap affair

Just a cheap affair that's what love means to you

I'll keep searching somewhere there's a love that's true

If I'll never find him either here or there

At least I'll never settle for just a cheap affair

[piano]

Be honest and face it we come from different worlds

You have found out that I'm a good time girl

You don't really love me at least be fair

When our love is forever not just a cheap affair

Just a cheap affair...
