

Kitty Wells, Leavin\' Town Tonight

Leavin' leavin' on that midnight train
I took all that I can take you're driving me insane
I tried to please you but nothing turns out right
I'll buy a oneway ticket I'm leavin' town tonight

Leavin' you behind there's nothing left to do
You've had your chance now our love is through
I'm glad to know there's no more fuss and fight
You're wasting tears darling I'm leavin' town tonight
Leavin' leavin' on that midnight train...

[steel - guitar]

No needing making promises you've never kept before
I made myself believe them but never anymore
All the love in the world would make you do right
Here comes that midnight special I'm leavin' town tonight
Leavin' leavin' on that midnight train...
I'm leavin' town tonight
