

Kitty Wells, Love And Wanted

Loved and wanted everyone wants to be darling I'm so happy you love and want me

Without your love my dear what would I do loved and wanted especially by you

Some man crave welth while other seak fame

But without your love dear they don't mean a thing

I'd rather have true love and live in a shack

Then have a rich husband slippin' around behind my back

Loved and wanted...

[piano]

Everybody needs a love it's part of nature's plan

A man for every woman a woman for every man

Some never find the right one sad but it's true I found the only one when I met you

Loved and wanted...
