

Kitty Wells, Make Believe (Till We Can Make It Come True)

Make believe that we're happy make believe that we're happy
Just pretend that it's true just pretend that it's true
Make believe you have me I'll make believe I have you
We'll make believe till we can make it come true

You belong to another you belong to another
I belong to someone too I belong to someone too
But they can't seem to see that our love just has to be
We'll make believe till we can make it come true
[fiddle - steel]
Maybe someday up above maybe someday up above
We'll understand our kind of love we'll understand our kind of love
We know a love like ours is real I know just the way you feel
We'll make believe till we can make it come true
Make believe that we're happy...
