

# Kitty Wells, Once I Tried

I can't help it cause you're cryin' over time  
So don't blame me if you're about to lose your mind  
There's no place left in my heart for you to hide  
Once I tried so hard to love you once I tried  
Once I tried to be the girl you wanted me to be  
Once I tried to make you happy but you wanted to be free  
Now I know my heart will never ever let you back inside  
Once I tried so hard to love you once I tried

[ guitar ]

I put new locks on all my doors today  
Cause I heard the you were coming back this way  
Since your new love found the better ways to fly  
You think I love you like I loved you when I tried  
Once I tried to be the girl...  
Once I tried so hard to love you once I tried
