

Kitty Wells, Password

Password please use the password it opens the door to my heart

Password love is the password just say the words of love and come on in

This game of love we're playing is a game that's played by two

Two that seem so much in love still one cannot be true

We played this game of love before but this time I hope I'll win

Cause I don't think that I can go through this game of love again

Password please use the password just say the words of love and come on in
