

Kitty Wells, Reno Airport Nashville Plane

Sittin' in the Reno airport waitin' for the 3-0-2

All the hungry men they watch me don't know I'm coming home to you

They think I'm just a Reno woman another week I would have been

But I'm sittin' in the Reno airport waitin' for the Nashville plane

[steel]

Today I'm laughing feeling happy yesterday I thought I'd die

Didn't really want to come here didn't want to say goodbye

Can't wait to feel your arms surround me can't wait to kiss your lips again

Sittin' in the Reno airport waitin' for the Nashville plane

[strings]

Didn't know how much I'd miss you until I heard you on the phone

I'm glad you have the luck to call me and tell me I could come back home

I guess the people think I'm crazy laughing out loud this way
