

Kitty Wells, Step Aside

Angray words were spoken and you turned and left me in a cloud of gloom

I knew when you took the car you'd drive around till you found a saloon

Grip some pretty woman there makes over you and start that burning glow

Fight the urge to hold her tight just walk away refuse her tell her no

Step aside if she tries to get near you lock your heart if she starts making time

Turn your head if she says that she needs you step aside please don't step out of line

[fiddle]

Don't feel bitter baby just because of something that was said so cruel

Stop before you go too far control yourself don't turn into a fool

Don't let her get close to you cause if you do you won't be very strong

Listen to your conscience now and keep me from being sorry later on

Step aside if she tries...

Step aside please don't step out of line
