

# Kitty Wells, That Ain't A Woman's Way

I sat alone at home all weekend waitin' for you to call  
But the phone didn't ring and the door didn't knock and I sat there talkin' to the wall  
Then today when you did come around it didn't mean nothing to you  
You say in your heart you know you love me and I oughta know it too  
But that ain't a woman's way baby that ain't a woman's way  
A woman has to know she's loved and needed every day  
All you wanna do is tease me all you wanna do is play  
Breakin' up makin' up stayin' all shakin' up that ain't a woman's way  
No that ain't a woman's way

[ guitar ]

Just today I begged you please let's have a little talk about us  
But you said no that you had to go and we ended up having a fuss  
If I asked you to give me a ring you probably would on the phone  
Sometimes I can't help but think I'd be better off alone  
That ain't a woman's way baby...
