

Kitty Wells, The Man I Used To Know

You're asking my forgiveness you know you done me wrong
you've torn our home to pieces and you stayed away too long
there's been another woman oh but I still miss you so
I never have forgotten the man I used to know

The man I used to know was kind and true
sometimes I wonder was that same man you
but when you hold and kiss me and whisper words so low
my heart tells me you really are the man I used to know

The man I used to know was kind and true
sometimes I wonder was that same man you
but when you hold and kiss me and whisper words so low
my heart tells me you really are the man I used to know
