

# Kitty Wells, There's No Greater Time Than Now

If you're tired of the life that you're living then why don't you change it now  
For no one knows what tomorrow holds there's no greater time than now  
There's no greater time than now there's no greater time than now  
Don't let this chance pass for it could be your last there's no greater time than now  
[ steel ]  
So come while the choir is singing oh come while time still allows  
Oh come and be safe before you go away there's no greater time than now  
There's no greater time than now...
