

# Kitty Wells, There's Poison In Your Heart

Once I loved you darling and it thrilled me through and through  
I must admit I wanted only you  
Your kisses left me restless when you said we&#039;d never part  
Your lips are sweet as honey but there&#039;s poison in your heart.

The way that you two-timed me is a sin and it&#039;s a shame  
You even said you&#039;d like to change my name  
You vowed that you&#039;d be faithful but you lied right from the start  
Your lips are sweet as honey but there&#039;s poison in your heart.

Maybe I&#039;ll find that faded kind and let me love again  
Then I&#039;ll forget my fickle dreams of you  
It&#039;s just too bad we&#039;ve never had an even-steven start  
Your lips are sweet as honey but there&#039;s poison in your heart...
