

# Kitty Wells, True And Lasting Kind

I walk the line because he make me want to

Because he's mine there's a lot of things that I don't do

And it makes me proud to tell someone he's mine

For our love is the true and lasting kind

I've searched for ways to tell him that I love him

And make him know that no one stands above him

It's the thought of his that gets me home on time

For our love is the true and lasting kind

It scares me sometimes when I stop to wonder

What woud I do without him by my side

I could never fill the space he'd leave behind for our love is the true and lasting kind

Our love is the true and lasting kind
