

# Kitty Wells, Wasting My Time

Wasting my time acting happy and carefree the one hurting most that's got to be me

I should win an Oscar my acting was first class

You were just a bad memory from out of my past

Dancing and laughing the world at my feet

Then the life of a party cried herself to sleep

Wasting my time acting happy and carefree the one hurting most that's got to be me

[ steel ]

My make believe world is no good for me but it only hurts me more when I face reality

I'm tired of pretending there's nothing else to do

But there's one thing for certain I'll keep on loving you

Wasting my time acting happy and carefree the one hurting most that's got to be me
