

Kitty Wells, Your Love Is The Way

Your love is the way I always thought love should be

Your love is the kind of love that makes me happy

No tears and sorrow and no misery your love is the way I always thought love should be

Now I've been hurt in love before but I'll never be hurt by love anymore

I've finally found what I was searching for

Your love is the way I always thought love should be

Your love is the way...
