Kitty Wells, Your Wild Life's Gonna Get You Down

You don't care what kind of life you live you don't care for love I give
You honky tonk all over town and your wild life's gonna get you down
I beg you time and time again not to treat me like you do
You've always been a run around now your wild life's gonna get you down
[fiddle]
Although you've always been untrue I know I'll never love anew
You're not the one for me I've found and your wild life's gonna get you down
You don't care no more for me darling that is plain to see
Someday I want to be around to see your wild life's get you down
