Kix, Love At First Sight (Whiteman & Forsythe)

Oh what an explosion, my hearts gonna fail It was 6.8 on the Richter scale A vision of beauty, well I'm caught in a stare A red light turns green - not even aware I just can't help it - I'm daydreaming at night But just one look and it's love at first sight It was love -- love at first sight

Love - Love at first sight Love - Love at first sight Love - Love at first sight

Well I found love -- but love ain't enough So gimme that gimme that all that stuff

I'm free and easy

I got 1, 2, 3, 4 - Pretty girl friends I got to keep on getting while the getting is good

Now 5, 6, 7, 8 - I would if I could

My dick was very hard and she dropped down to her knees

If that's the way she cooks such a hypermaniac

It was love - love at first sight

Love - Love at first sight Love - Love at first sight

Love - Love at first sight

It was love - Love at first sight I said love - Love at first sight

No it was love can't ya' see

Love at first sight Oh - Give me a bite
