## Klaatu, Doctor Marvello

Oh, my love and I were thinkin' How low our boat was sinkin' From fishin' for the bluze Every lure we tried, Jonesey turned the tide We lost our cool caught in whirlpools

Oh, so bland was our condition We summoned black magicians To wave a wand or two Talismanic spells, tannus root and ... well To tell the tale their magic failed

If that is all you want Then I may be of service If all you want is love Well I may know a special man Whose love machine turns can't to can With your mind in mind With your mind in mind

Oh, the trance wore off by morning A sentimental journey was hazily recalled Though it sounds absurd, we're completely cured And now we're fine And now we're fine My love and I
