

# Klangkanzlei, Shine on me

I got everything but the kitchen sink  
Do what I wanna do say what I think  
Leave it all behind out of sight, out of mind  
Let that old sun shine

Shine on me  
Now the sky is clear  
Shine on me  
Shine on me  
Throw some rays down here  
Let that old sun go shine

We are in our prime  
the sun's in his hat  
To cry would be a crime  
been there, done that  
If you have got the place  
I've got the time  
Let that old sun shine

Shine on me  
Now the sky is clear  
Shine on me  
Shine on me  
Throw some rays down here  
Let that old sun go shine

Rain, rain, go away  
come again another day  
Rain, rain, go away  
come again another day  
Rain, rain, go away  
come again another day  
Rain, rain, go away  
come again another day

Throw some rays down here

Let that old sun go shine  
Shine on me  
Now the sky is clear  
Shine on me  
Throw some rays down here  
Shine on me  
Let that old sun go shine  
Let that old sun go shine

Shine on me  
Shine on me  
Throw some rays down here  
Shine on me  
Shine on me  
Now the sky is clear  
Shine on me  
Shine on me  
Throw some rays down here  
Let that old sun go shine
