Klark Kent, Stay Ready

My radio is tuned to an alien station My fingers are tapping to an alien tune I wonder what kicks you can get on this moon Stay ready to cut and run

Stay ready to cut and run Stay ready to fly away Stay ready to cut and run Stay ready stick to attention

I wonder what kind of birds are in the sky Stay ready to fly away Wierd life forms drinkin' cups of tea There's some strange stuff they're gonna show me

Stay ready to cut and run Stay ready stick to attention Stay

Stay ready to cut and run Stay ready to fly away

Your planet on my screen (Ooooo...)
Whole new place
I never seen it before (Ooooo...)
Strange city down below
1,000 feet to zero (Ooooo...)
Stick to attention

Stay ready to cut and run Stay ready to fly away Stay ready to cut and run Stay ready to fly away Go!

I shoulda been a cowboy Uhhh Ohhh
