## Kle Shay, Hey Isabella

Hey Isabella, whats it like in Forks City

I know the rain must a pain, but hey, at least you have company

Yes you do, you know Edwards in love with you, and I am too

Thats right Bella, Im fascinated by your image

And Im as jealous as Mike, that you chose to be with that guy Cullen, oh bell why?

Hes not even that nice of a guy, ok, thats a lie

Oh, Bella should be with me 4x

Bell please be with me

Hey Isabella, I know you have a real loud car

Im not a good mechanic, but I can tell you where some goods ones are, theyll have it fixed

I know Edward wants a piece of this, he can bring it then

Hey Isabella, I can so take care of James

I understand you dont want him around, theres some calls I can make, theyll handle it

And then youll be so gracious, cause Im a pimp

Oh, Edward is scared of me 2x

Oh, Bella should be with me

Cause I, am also quite charming

Arizona seems pretty far, to travel in a silver car

I know the Volvo cant make it all the way

I know that he knows how to fly, but I know how to fly a kite

And thats a greater accomplishment, I think

Hey Bella, I can promise you, that by the time they release New Moon

Youll know that Vampires are not as great, as they all say

Hey There Bella, make sure you stay out of the trees

You might fall and break you arm or something, cause Forks is really windy, I love you

I dont want anything to happen to you, unless you pick that other dude

Hey Isabella, if you do; then I guess were through

Oh, you know you should agree

That Edward is too condescending

Oh, Bella, you + me

= Total Chemistry

Bell please be with me
