

Klee, A Thousand Ways (English Version)

The first time that we met
I know I was too late
And that will never change
I'm on another plane

Traveled to the coast
Can tell you there's a host
The weather was insane
But we did not complain
And that's because
We are unafraid

To say that love flows in my veins
Unopposed, deep
A thousand ways

To say that love flows in my veins
Unopposed, deep
A thousand ways

We lost all that we had
A love that had grown so sad
Maybe we were not right
To face this endless fight

To say that love flows in my veins
Unopposed, deep
A thousand ways

To say that love flows in my veins
Unopposed, deep
A thousand ways

And could you let us know
What should happen now
Are you sure
What the truth is
Always nervous
Always seek this
Always find this

To say that love flows in my veins
Unopposed, deep
A thousand ways

To say that love flows in my veins
Unopposed, deep
A thousand ways
