

# KMFDM, Free Your Hate

Silence is golden  
Ingorance bliss  
Better off not asking  
What you'd rather forget  
And as the vice grip choke holds  
All of our freedoms are meeting their end  
And for the wars they wage  
Numberless troops lie wounded or dead  
The beatings will continue  
Until morale improves  
Free your hate  
Crusade in the days of rage  
Perilous folly  
Rise up against your fate  
Free your hate  
Crusade in the days of rage  
Tireless cunning  
Stampede and break your chains  
Terror at gunpoint  
Torture at large  
Enemy combatant  
Labeled a threat  
Without trial or charge  
Repetition of history  
Messenger, prophet, martyr for god  
All for once and for all  
Reclaim your power  
The tyrant must fall  
The beatings will continue  
Until morale improves
