

KMFDM, Help Us/Save Us/Take Us

God is born no place no time
The mills of God are late to grind
Same night awaits the rich and the poor
Melt down everything to purify it
Never, never, no place no time
The measureless torment of eternal fire
Help us, save us, take us away!
Help us, save us, take us away!
Lost, abandoned, whither do we stray
Help us, save us, take us away
The end of time will be the end of guilt
Help us, save us, take us away
Last of mankind come into view
The gates of hell are open for you
The dark eye of Satan is looking at you
Through the gates of the underworld
Everything spirit
Mark the call of my words
Never, never, no place no time
The measureless torment of eternal fire
Help us, save us, take us away!
Help us, save us, take us away!
Lost, abandoned, whither do we stray
Help us, save us, take us away!
The end of time will be the end of guilt
Help us, save us, take us away!
Last of mankind come into view
The gates of hell are open for you
Help us, save us, take us away!
Help us, save us, take us away!
Help us, save us, take us away!
Help us, save us, take us away!
Help us, save us, take us away!
Help us, save us, take us away!
Help us, save us, take us away!
Help us, save us, take us away!
