

# KMFDM, Help Us/Save Us/Take Us

God is born no place no time  
The mills of God are late to grind  
Same night awaits the rich and the poor  
Melt down everything to purify it  
Never, never, no place no time  
The measureless torment of eternal fire  
Help us, save us, take us away!  
Help us, save us, take us away!  
Lost, abandoned, whither do we stray  
Help us, save us, take us away  
The end of time will be the end of guilt  
Help us, save us, take us away  
Last of mankind come into view  
The gates of hell are open for you  
The dark eye of Satan is looking at you  
Through the gates of the underworld  
Everything spirit  
Mark the call of my words  
Never, never, no place no time  
The measureless torment of eternal fire  
Help us, save us, take us away!  
Help us, save us, take us away!  
Lost, abandoned, whither do we stray  
Help us, save us, take us away!  
The end of time will be the end of guilt  
Help us, save us, take us away!  
Last of mankind come into view  
The gates of hell are open for you  
Help us, save us, take us away!  
Help us, save us, take us away!  
Help us, save us, take us away!  
Help us, save us, take us away!  
Help us, save us, take us away!  
Help us, save us, take us away!  
Help us, save us, take us away!  
Help us, save us, take us away!
