

KMFDM, Thumb Thumb

You know I like everything about you
The way your talking it's quite exciting
Keep it up and I hide my face
The way I'm eating is a social disgrace

I want a lot of this loving feeling
The way you trust me is like I was bleeding
It's really neat driving in this car
Shut the door
Let's hope to god we can get it right
I know a place we can rock alright
Nobody's gonna catch you and get a fright
You know the little girl who makes me the big one who takes me

But now it's later and I'm washing my hands
It's thee Irina the promised land
Fighting on a price
Sitting on a stump
Someone's gonna get you then a thumb thumb thumb

I mean it's funny when it gets so big
But I know you're gonna dig everything I give
For sure you say it's a lot of meat
But you when you get it all in it's a hell of a treat now now

Coz' I'm a man who's sick but I got class
Coz' you only get respect when you're kickin' ass
I'm a man who's sick but I got class
Coz' you only get respect when you're kickin' ass
Coz' I'm a man who's sick but I got class
Coz' you only get respect when you're kickin' ass
