

# KMFDM, Torpedoes

There goes the neighborhood  
And somehow you knew it would  
'cuz you understand armageddon's right around the bend  
You got your fortune right in your hands

You do what you gotta do  
'cuz you got that attitude  
And you say goodbye as easy as most people tell a lie  
You choose no options you do or die

Goddamn the torpedoes  
It's time to run away with the sideshow  
Full speed right ahead  
Don't stop you can sleep when you're dead

That's just the way it goes  
That's how the river flows  
If you stay stone cold chances are your options will unfold  
All that glitters turns into gold

Be proud to deviate  
It's time to instigate  
Dictate your own fate  
You're about to detonate
