

Knapsack, Courage Was Confused

Tear the feeling from the fool's heart
It seems the meaning just escapes you
And you're nowhere near the worst part
His arrows struck him in this heart he'd never use

Sounds good, he sounds alright
On the first day he swears
The secrets in the sacrifice

Broken banister will fix him
The flight of stairs has let him through
Bent-over, brought to his addiction
He surfaced once, but his courage was confused

Sounds good, he sounds alright
On the first day he swears
The secrets in the sacrifice
