(Knightowl)

Now what you gonna do fool

What about the other day
When head banging the fucking bitches
Fucked up with the bird, but sure
Now you heard, what happened to your homies
Was only the beginning, fool still undefeated
You the one got delete, is time to nap

You talk a lot of shit, heard about you got strap
So I couldn't take a change, with no hesitation
I shot you on the dome, revenge the motivation
But the mission is not complete, until you crew is delete
All yo got to go, don't fuck with me no more
You see the type of shit, that it happened if you do
