

# Knights Of The Abyss, Hell Bent

What's left is the sham of creation  
Across the nation people sing thier affiliation  
Searching for a revelation  
Banking on thier reputation  
The church becomes a military installation  
Growing from lack of information and discrimination  
I will proclaim my denunciation of this abomination  
Who gives them the authorization to change our  
Innocent nation into one of specific religious orientation  
For hundreds of years we have lived under this Persecution  
Now its time they pay the restitution  
Embracing science and the notions of evolution  
Piecing back together vital tenets of the constitution  
Give people back control of the financial institution  
Take the bible as nothing but a book of illusions  
Give way to our counter-revolution  
We're not the problem, more of a solution  
Counter-revolution.
