

Knockout Theory, Last Chance

The pressures building up
This time, enough is enough
Bite the hand that feeds the fire
Brace yourself, this time were live
And now we face the facts
This time, theres no turning back
Lead the way, take back our lives
Face yourself and cut the ties
And we sing
And join as one
And now we march to the beat of our own drum
Everybodys so afraid to be different
Everybodys afraid to just stand out
Your inner voice is screaming
Take the bait and run, take the bait and run
Everybodys afraid to be let down
Underneath the starry sky
We will unite, we will prevail, we will align
We will forge ahead
Open your mind and sing instead
Break the silence one last time
Stand up for us, for what is right
Federation is at stake
How much more time will it take
To close your mind and make a fist
Its our last chance, its hit or miss
And we sing
And join as one
And now we march to the beat of our own drum
Everybodys so afraid to be different
Everybodys afraid to just stand out
Your inner voice is screaming
Take the bait and run, take the bait and run
Everybodys afraid to be let down
Underneath the starry sky
We will unite, we will prevail, we will align
