

# Knockout Theory, Last Chance

The pressures building up  
This time, enough is enough  
Bite the hand that feeds the fire  
Brace yourself, this time were live  
And now we face the facts  
This time, theres no turning back  
Lead the way, take back our lives  
Face yourself and cut the ties  
And we sing  
And join as one  
And now we march to the beat of our own drum  
Everybodys so afraid to be different  
Everybodys afraid to just stand out  
Your inner voice is screaming  
Take the bait and run, take the bait and run  
Everybodys afraid to be let down  
Underneath the starry sky  
We will unite, we will prevail, we will align  
We will forge ahead  
Open your mind and sing instead  
Break the silence one last time  
Stand up for us, for what is right  
Federation is at stake  
How much more time will it take  
To close your mind and make a fist  
Its our last chance, its hit or miss  
And we sing  
And join as one  
And now we march to the beat of our own drum  
Everybodys so afraid to be different  
Everybodys afraid to just stand out  
Your inner voice is screaming  
Take the bait and run, take the bait and run  
Everybodys afraid to be let down  
Underneath the starry sky  
We will unite, we will prevail, we will align  
Everybodys so afraid to be different  
Everybodys afraid to just stand out  
Your inner voice is screaming  
Take the bait and run, take the bait and run  
Everybodys afraid to be let down  
Underneath the starry sky  
We will unite, we will prevail, we will align
