

# Knowledge, Better Things

Just because I'm not too old, it doesn't make me dumb  
Coz it seems I know much more than you from my years under the gun  
I've seen more than you would think, I've lived my forty fast  
And if you think you're better coz you're old you can suck my a\*\*

We've gotta stick together, if we're gonna win this fight  
Let's start a f\*ckin' movement all we need to do is unite  
We've gotta stick together, if we're gonna win this fight  
Let's start a f\*ckin' movement all we need to do is unite

I don't b\*tch about how things work we make things how they are  
You just sit and do nothing and show your battle scars  
Sure I might be young but I know that I'm not dumb  
Please step back and just observe to see what I become

We've gotta stick together, if we're gonna win this fight  
Let's start a f\*ckin' movement all we need to do is unite  
We've gotta stick together, if we're gonna win this fight  
Let's start a f\*ckin' movement all we need to do is unite

I've bled, and cried, and worked for everything I have  
So don't you tell me how to live you're not my f\*cking dad  
And I will always tell you exactly how I feel inside  
The meek inherit nothing and only the strong survive  
So if you wander down hill or you think it's fine the way it is  
You can stay in the dark we'll move on to better things  
So if you wander down hill or you think it's fine the way it is  
You can stay in the dark we'll move on to better things

We've gotta stick together, if we're gonna win this fight  
Let's start a f\*ckin' movement all we need to do is unite  
We've gotta stick together, if we're gonna win this fight  
Let's start a f\*ckin' movement all we need to do is unite
